## Personal lighting in cabinets and shelves

With INREDA cabinet lighting it's easy to brighten up your cabinets and shelves with attractive, practical light. INREDA works together with ANSLUTA cord system, which allows you to interconnect as many as six lamps that can be turned on and off together or individually. This makes it possible for you to adapt the lighting to suit your taste and needs. INREDA cabinet lighting is coordinated to match BESTÅ storage series in both style and size.
