HOW TO CONVERT

IKEA PS sofa-bed is easy to open and close. When you want to use it as a bed, you just pull the foot end forward until the surface is flat. Now it is a 160x205 cm double bed. Fast and comfortable for sleepy guests – or tired hosts and hostesses.

Having overnight guests should be easy! To turn the bed back into a sofa, push it together until the castors are a bit above ground.

COMFORT MATTRESSES

Smart choice for sleepy people

The smart design makes IKEA PS sofa-bed so easy to convert into a bed, you can do it with one hand – in almost no time. Just pull out the foot end and you have a double bed. Nice when that sleepy feeling comes over you. If you'd rather have a single bed, there's a chair-bed in the same series. You can also choose between three different mattresses and removable, washable covers. This way, you get to make just the sofa-bed you've always dreamed of.

Soft or firm?

When you buy IKEA PS you choose between three mattresses to go with it. The mattresses are called LÖVÅS, MURBO and HÅVET and each has its own characteristics. Regardless of whether you prefer a soft, spring mattress or firm polyurethane foam for sitting and sleeping, you'll find one that suits you. Test them yourself to find the one you like best.

LÖVÅS

A firm, yet supple polyurethane foam mattress that will provide your body with both support and sleeping comfort. The mattress is 10 cm thick and has a removable, dry-clean cover.

MURBO

The top layer of high resilient foam shapes itself to your body, allowing your spine to remain straight and your sleeping position to be more relaxed. The resilient foam also makes the mattress very durable. The bottom layer consists of polyurethane foam. The mattress is 10 cm thick and has a removable and machine washable cover.

HÅVET

Latex and high resilient foam combine elasticity with the ability to mould to the contours of your body. Latex is a material which improves air circulation and allows moisture to evaporate naturally. The mix of materials makes the mattress both pliable and long lasting. The top layer consists of latex and the bottom layer of high resilient polyurethane foam. The mattress is 10 cm thick and has a removable and machine washable cover.

SUVERÄN

Complement your choice of mattress with SUVERÄN mattress pad. It helps protect your sofa-bed and keeps it fresh longer. Elastics at the corners keep the mattress pad in place. Mattresses that are 120 cm and wider are separable to make them easy for you to wash in the machine.
