Stock item

LILLBERG seating series has a simple style with plenty of comfort. The frames are available in two finishes: black-stained or clear-lacquered. The cushions combine softness with good support, and with your choice of cover you can either match the frame finish or create exciting contrasts. The rocking chair, armchair and sofas also have adjustable backrests, so you can easily lower the position and lean back. And because you do the assembly and transportation yourself, the price is low. Why not take one home with you tonight!

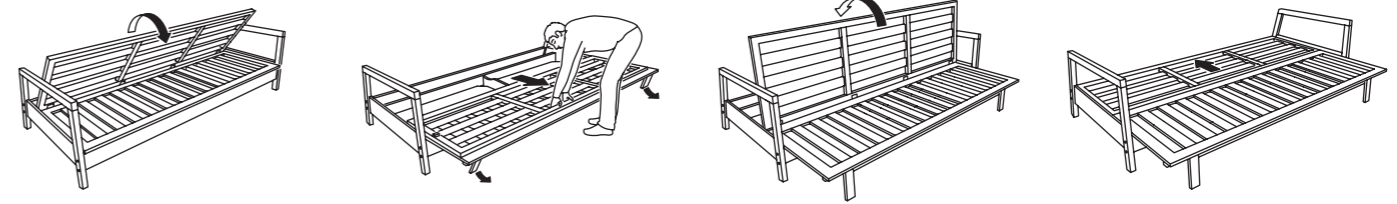

Practical and easy to maintain

LILLBERG is practical and easy to keep clean and fresh, leaving you more time to sit and relax in it. The covers are easy to take off and wash. And the lacquered frames are easy to wipe clean with a damp cloth. The supporting slats are made of aspen wood, unfinished to help keep the cushions firmly in place.

Three positions for comfort

The backrests on LILLBERG rocking chair, armchair and sofas have three positions. When you want to lean back, just lift the seat slightly and ease it gently towards you. And when you want to recline, just put it in the lowest position.

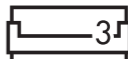

HOW TO CONVERT

You can quickly turn LILLBERG sofa-bed into a comfortable bed. Start by taking away the seat cushions. Then, pull the backrest towards you and pull out the slatted bed base until

the two support legs drop down. Push in the backrest, put back the seat cushions – and make the bed.
