

IVAR

CARE INSTRUCTION

For a durable and easy care surface, treat with oil, wax, varnish, paint or stain.

ENVIRONMENT

Renewable material (wood fibres).

Renewable material (wood). Solid wood - not from intact natural forests.

The material in this product may be recyclable. Please check the recycling rules in your community and if recycling facilities exist in your area.

SAFETY

We recommend you to fix the furniture to the wall with the enclosed safety bracket to prevent it from tipping over if a child climbs or hangs on it. Different wall materials require different types of fixing devices. Use fixing devices suitable for the walls in your home (not included).

For higher stability, complete every second section with a cross-brace.

Need more space?

By combining parts in the IVAR storage system you can put the space you have to best use. Build upwards and to the sides, make use of corners and complement with cabinets and doors. Connect two side units with a long shelf between them and put your bed underneath. Drill into the solid wood side units and add hooks. Paint or wax the entire shelf in a colour you really like. The possibilities are many - even if the space is limited.

Good worker

Tired of boxes and things scattered all over your office? With the IVAR storage system you can quickly organise all the office supplies in the stock room, paper piles in the desk area and binders in the archive. Start by thinking about your needs and your space. Then, combine different heights and depths, make use of corners and add the finishing touch with cabinets and doors. You will be surprised at how easy it is to put everything in order. Good luck!

HOW TO BUILD

First, think about what you have and how much you need to store - books, CDs, binders, etc. Combine the side units with shelves. For the first section you need two side units, a set of shelves and a cross-brace. Extend sideways, either at the same height or a different one. For each additional section, you need just one side unit, which you link to the storage solution with shelves, cabinets or other accessories. To turn a

corner you need a corner post and corner shelves. To ensure stability we recommend that you fit a cross-brace to every other section.

COMBINATIONS

Cross-brace 100 cm	877.496.00	1
Shelf 83x30 cm	900.950.32	5
Side unit 30x179 cm	837.566.09	2

Start by thinking of your needs; then it is easier to create a storage solution just for you. A simple unit can be enough storage for a limited space or the foundation for a larger storage solution if your needs change.

Overall size: 89x179 cm

This combination: SR SR 385 (498.243.26)

All the products (shown here) may not be available at the store. Please contact the staff for more information. For more detailed product information, see the price-tag and the Internet. All units require assembly.

COMBINATIONS

Make maximal use of the wall space by building a storage solution around, for example, the sofa, bed or desk.
Overall size: 341x226 cm
This combination: SR 1295 (198.431.66)
